SGS is the world’s leading inspection, verification, testing and certification company. SGS is recognized as the global benchmark for quality and integrity. With more than 75,000 employees, SGS operates a network of over 1,500 offices and laboratories around the world. As the world’s leading provider of environmental services, SGS Environmental Services offer you a comprehensive range of specialist solutions, including sampling, testing, inspection, certification, verification, monitoring, assessment, study and system integration to help you minimize your environment impact, enhance your competency, focus on environmental protection and a greener future from global perspectives.

Every industry strives to create a healthy and safe working environment nowadays. Establish a comprehensive EHS management system and create sound EHS culture, and ensure suppliers are in compliance with your EHS requirements have become key indicators for corporate social responsibility and sustainability. As a sector expert in EHS, SGS can provide you with tailor-made EHS consulting services to help you improve EHS management, reduce injury and accident rate, and to enhance your corporate performance in terms of environmental, social responsibility and sustainability.

**EHS AUDIT**
- SGS is the trustworthy third-party partner to many international buyers. We provide professional EHS audit service such as wastewater audit to your suppliers in order to minimize your risk in supplier EHS management.

**EHS RISK ASSESSMENT**
- Risk control is at the heart of EHS management. SGS provides comprehensive workplace hazard identification, EHS risk assessment and provide recommendations of practical risk control measures
- SGS is skilled in conducting explosion risk assessment including dust explosion and combustible gas explosion, and advising you on corrective and preventive measures accordingly

**INDUSTRIAL HYGIENE**
- Qualitative exposure assessment which can form the basis for industrial hygiene management of your facility
- Quantitative exposure assessment on chemicals, dust, biological, noise, vibration and thermal stress etc.
- Comprehensive industrial ventilation survey and assessment
- Recommendations on reducing personal exposure
- Facilitate the implementation of corrective actions

**EHS TRAINING**
- SGS can provide custom-made corporate internal EHS training and EHS modules training for you to strengthen your EHS capacity

**EHS CONSULTANCY**
- SGS’s EHS experts can provide tailored EHS term consultancy service to help you resolve your EHS problems and improve management efficiency

---

**SGS**
