SGS

RESPONSIBLE BUSINESS SERVICES (RBS)

SGS is the world's leading inspection, verification, testing and certification company. SGS has had the most accredited qualifications from relevant organizations and associations in audit industry. We provide the professional audit, evaluation and training services to different corporations, like social responsibility, quality management, environmental evaluation and supplier chain security assessments. Relying on complete management system, wide service network, professional technical team, and abundant audit experience, we help not only overseas buyers but also local corporations to control risk, improve efficiency, and achieve the sustainable development.

WHY SGS?

- **AUTHORITY:** SGS is a founding member of APSCA and actively participates in and supports the development and updating of APSCA standards and processes as an executive director. SGS has been the first authoritative auditing firm for many buyers and clients for more than 20 years.
- **PROFESSIONALITY:** SGS has been recognized by many international schemes, with its preciseness and professionalism recognized by the industry.
- **EFFICIENCY:** One-stop process, one-to-one services, focus on customer needs and expectations.
- **SCIENCE:** Specific audit plan and suggestions help clients' improvement.
- **VALUE-ADDED:** Regular free seminars and other activities help clients understand the project contents, process and focus of rectification.
